James, I checked and Wednesday was the best time for this call, but if there are conflicts can we reschedule for early next week?

Larry

Thank you! R6 attendees will be

Michael Feldman
Aaron Vargas (ORC)
Robert Imhoff

I can send an overview of our attainment demonstration approach to inform the discussion if that would be helpful.

Hi James. Sure. I can schedule something. Can you let me know who from your region should be on the call.

Larry

Hi Larry,

Do you think you could set up an initial call for later this week about a Clean Data Determination for two Texas nonattainment areas with shutdown DRR sources? We'll need to brief our division director and regional administrator pretty quickly to meet schedules and would like to have initial impressions of our approach. We would outline our approach to the demonstration to see if we're on the right path and talk about options for the remaining nonattainment elements sans a redesignation.

Thanks,
Bob

Yes, a quick call makes sense. Your overall HQ lead/point of contact for the CDD will be Larry Wallace from the policy division. He will coordinate with my division (technical) and OGC (your lead will be Kaytrue Ting).

So I recommend that you reach out to Larry and ask him to set up a quick kick-off call just to touch base with everyone. But feel free to reach out to me as needed and as often as you like.

Also, I think we need a quick call to make sure we are on the right track with the demonstration and there is the issue of continued demonstration of attainment. We also need to start talking about what the limited maintenance plan (emission inventory, contingency plan, etc...) would look like if there is no operating source.

Todd,
We are finalizing our regional draft and will be sending it to OGC and OAQPS soon. Who are our contacts?
Thanks,
Bob
